

Shoreline Trading Group Continues Expansion Hires Goldman Sachs Alumni to Expand Agency Execution Team

(New York: June 12, 2006) - Shoreline Trading Group, LLC offers prime brokerage and agency execution services to emerging managers as well as established fund professionals of all sizes and investment styles. Today Shoreline announced that Paul Havens and Humberto (Bert) Rios have joined the firm to co-head the New York Agency Execution Team. The firm believes their skills will complement the existing agency desks and expand the firm's depth. The Agency Execution Team provides conflict-free trading in both equities and options via multiple trading platforms, ECNs, market makers, regional exchanges and Alternative Trading Systems.

"At Shoreline Trading, we believe there is an opportunity for us to continue to expand our services to start-up and mid-sized hedge funds which do not command the attention and services they deserve from traditional trading desks", noted Michael Murray, Managing Director with Shoreline Trading Group. "Our clients understand the value of having experienced traders like Paul and Humberto execute their orders...traders that hold no inventory and will not trade against the client's order. We feel that the access our clients will have to these two industry veterans will be invaluable."

Mr. Havens joins Shoreline Trading Group from Goldman Sachs with 10 years of sales and trading experience.

"Shoreline Trading Group understands the concept of outsourced trading", said Mr. Havens. "I look forward to using my experience to contribute to the company's continued growth." Mr. Rios has over 25 years of Wall Street experience managing the trading desks at Spear, Leeds & Kellogg and Goldman Sachs.

"Start-up and mid-sized hedge fund managers typically wear many hats", said Mr. Rios. "Therefore it is paramount for them to have access to an experienced Agency Execution Team that allows them the flexibility to talk to investors, raise capital and manage their funds."
