

**Shoreline Trading Group Expands Client Offering**  
*Clients gain access to the premier services of  
Panoptic Fund Administration*

**(New York: October 21, 2008)** - Shoreline Trading Group LLC, a leading provider of multi-prime brokerage and agency execution services to emerging and established asset managers, announced today that the firm has expanded its relationship with Panoptic Fund Administration, LLC. The recently expanded relationship will focus on offering high quality and cost effective fund administration to the asset managers being serviced through Shoreline Trading's multi-prime brokerage service offering.

Panoptic Fund Administration was founded with the belief that for emerging fund managers to survive and for established managers to thrive, a new breed of effective, efficient and comprehensive fund administration was needed. Panoptic capitalizes on its extensive operational strength and experience, with an eye towards offering asset managers a cost effective fund administration solution. Panoptic's team of professionals has experience in every facet of the administrative process, handling accounts as diverse as family offices to international hedge funds. One size does not fit all and Panoptic has a suite of services that can be customized to satisfy all requirements

"We have proved to be a real value added service to many of Shoreline's prime brokerage clients." said Jeff Lambert, President of Panoptic Fund Administration. "We look forward to expanding this relationship so that their clients can grow without the additional concerns of back office administration."

"Panoptic's support of Shoreline's clients has strengthened our multi-prime offering." said Michael Murray, a Shoreline Trading Group partner. "By offering multi-prime brokerage relationships with an experienced full service fund administrator, Shoreline Trading and Panoptic have leveled the playing field for both emerging and established managers."
